Subject: Hard-Co Construction - the request to dump at 3440 Wilson Road, Oshawa

Dear City Clerk:

I am a home owner on Harmony Road North, Oshawa. A neighbor on Columbus and Harmony earlier in the month made me aware of the request Hard-Co have made of the Town to dump fill on their property located at 3440 Wilson Road by getting a site alteration bylaw approved. I also attended a Town meeting on November 20 in Columbus (which was about the Columbus Part II Planning Act) where this subject came up again by a resident who lives on Ritson Road (a Mr. Allen Frank).

I was shocked to hear of Mr. Franks experience of what happened to him from a previous time Hard-Co dumped fill on Columbus Road. For no other reason than Hard-Co's history of polluting the land by dumping on Columbus Road in the past, should be enough reason to deny their application to do this once again at 3440 Wilson Road. I am shocked that the Town would even consider allowing this to happen a second time knowing that there were environmental issues from the previous dumping site by Hard-Co. Clearly Hard-Co do not care about keeping the environment clean, pure, and safe, or about the people that live in our area (not to mention the added road traffic they will cause). Its all about business and making money in my opinion.

Oshawa's by-laws are developed to protect the people are they not?
Its difficult to get a building permit in this area due to the agricultural land and Oak Ridges Moraine nature of the land.

If you allow Hard-Co to do this again, you are allowing the degradation of the Health and Environment of our area, and of our potable water and watershed.

Why would the Town even consider this once again knowing what you know from Hard-Co's history?

What can I do to have an impact and ensure the City does not allow Hard-Co to get this permit to dump?

Sincerely,

Peter and Marsha Huk
