Subject: Re. Heritage Oshawa.

My name is Bill Armstrong. I worked for Windfields stables at Woodbine racetrack. I was greatly saddened by the devolving of the farm in Oshawa. What a great piece of history and heritage. The whole place in itself is a time capsule. please don't let these people destroy the legend of these true Canadian heroes. But mostly please save the graves and the front gate pillars that are being tore down improperly as I write this to you. How can we let this heritage historical site be ripped apart with no regrets as to what we are loosing. I live in Fort McMurray now but if I was there I would be chained to that front gate. Please for all those that love what it was and what took place there stop the destruction now. Preserve. Not destroy. Sincerly Bill R Armstrong. Thank you for your time.
